

CUF #11:30 Presentation, January 8, 2023

Kathleen McFadden recently gave an excellent presentation, *Gun Violence and Its Impact on Families*, about gun violence, prevention, and current legislation in Maine and across the U.S. She is a Volunteer Leader for *Moms Demand Action for Gun Sense in America* which is the largest grassroots organization in the country in opposition to the gun lobby. Despite what the name suggests, *Moms Demand Action* is comprised of mothers, brothers, educators, students, healthcare professionals, and survivors leading the movement in the prevention of gun violence.
